

WinCrest Care Instructions

Care Guidelines

1 For the **next 72 hours** after Installation

Avoid extreme weather conditions (ex: rain, snow, wind).

Recommendation Do not get a commercial car wash for the next 72 hours.

2 Clean Immediately

Substances such as tree sap, bird dropping, salt spray, insects, tar, oils etc. should be cleaned off regularly to extend the life of ULTRAFIT windshield protection film.

Next 72 hours

✳️ **After completion of the installation**, we encourage that you switch out your wiper blades for the best results.

Clean

Cleaning Materials

Use clean microfiber cloth, sponge, clay bar, or soft brush to prevent scratching on the film.

Wiper Care

1 Use washer fluid

Always use washer fluid when using your wipers to prevent scratching on the film.

2 Cleaning under the wiper blades

Use microfiber cloth with washer fluid or ammonia free glass cleaner to wipe along the underside of the wiper blades to remove any kind of residue.

3 If you see this, replace!

Recommendation Replace your wiper every 3-6 months.
